

Dear Author(s),

I Dr. U. R Babu guest editor of "**International Conference on Materials, Alloys and Experimental Mechanics (ICMAEM)**" have received your paper for review process after being plagiarized and verified whether under scope or not. I feel the work submitted on the "**Adequate Security Protocols Adopt in a Conceptual Model in Identity Management for the Civil Registry of Ecuador**" is worth full manuscript and the authors have well presented the introduction and result discussion parts in manuscript.

I am accepting the submission and presentation for inclusion in our conference proceedings which will be submitted for IOP: Material Science and Engineering Conference proceedings through our conference. After being peer reviewed if needed by journal the paper will be published. Thank you for having us.

With Thanks and Regards,
Dr. U. Ravi Babu,
Professor and Dean,
Narasimha Reddy Engineering College,
Hyderabad,
