

**MOISES TOAPANTA** is professor on of Computer Science at the Salesian Polytechnic University, Guayaquil, Ecuador. Coordinator research group: “Computing, Security and Information Technology for a Globalized World” “CSITGW”. He is an evaluator and accredited researcher of the Senescyt with No. REG-INV. 16-01530. He obtained his MSc. In ICT at the National Polytechnic School. He completed his doctoral stay at the Department of Information Technology and Communications of the Polytechnic University of Cartagena UPCT, Spain. He obtained the degree of PhD. In Information Technology at the University of Guadalajara, Mexico. Dr. Toapanta is a reviewer of scientific articles in several journals such as: IEEE Access Q1 (USA), Journal of Ambient Intelligence and Humanized Computing Q2 (Germany), Advances in Science, Technology and Engineering Systems Journal (ASTESJ) Q4 (USA), He has been a member of the scientific committee in several international conferences such as: FRUCT25 (Finland), CECNet 2019 (Japan), WorldS4 2019 (United Kingdom), among others. He has held scientific conferences in the area of ICT in several countries in the Americas, Europe, Asia; He has published 54 scientific articles in journals and conference proceedings of the IEEE Xplore, among others indexed in Scopus, EI Compendex, ACM, etc. He has worked in public and private institutions at an operational, tactical and strategic level in Ecuador, Colombia and Peru. His research areas are: Strategic alignment of ICT, Distributed systems, Networks, Security and cryptography, Cybersecurity, Blockchain technologies and applications.

**FELIX MENDOZA** received the B.S. and M.S. degrees in information systems from the Escuela Superior Politécnica del Litoral (ESPOL), Guayaquil, Ecuador, in 2010 y 2012 respectively. He is full time professor in the Career of Engineering in Sciences of Computing at the Universidad Politécnica Salesiana (UPS) since May 2014. He has professional experience in the area of Information Technology and Communication is 20 years in private companies of type: agricultural, software development, logistics, education and consulting. He is co-author of nine articles in the area of distributed architectures and indexed by Scopus. His research areas include distributed environments, information security, databases and algorithms. Prof. Mendoza is Member of Research group of the Guayaquil Headquarters “Computing, Security and Information Technology for a Globalized World” since 2017.

**MAXIMO TANDAZO** He obtained his master’s degree from Universidad Catolica de Santiago de Guayaquil, Ecuador. He is a professor in computer science at the Univesidad Politecnica Salesiana (UPS) of Ecuador. He is currently a PhD student of Computer Science and Technology at the Polytechnic University of Madrid, Spain. He has worked in private institutions doing consulting and management of technological project. He is interested in the Smart Cities research line and his research areas are: distributed systems, machine learning, neural networks and diffuse logic. Prof. Tandazo is Member of Research group of the Guayaquil Headquarters “Computing, Security and Information Technology for a Globalized World” since 2017

**ENRIQUE MAFLA** is a professor in the Informatics and Computer Science Department, at Escuela Politécnica Nacional in Quito, Ecuador. He got his MSc and PhD degree in computer science at Purdue University, West Lafayette. He has published in IEEE Computer, USENIX Journal on Computing Systems, Computer Networks and ISDN Systems, and proceedings of international IEEE and ACM conferences. Dr. Mafla has been a visiting professor at the University of Florida and worked for the Food and Agriculture Organization of the United Nations in Rome and Accra. He has been a consultant in the FAO and project funded by the Interamerican Development Bank. His research interests include distributed systems, cryptography, networking, blockchain technologies and applications.

**ROCIO MACIEL** is a Research Professor in the Information Systems Department of the CUCEA University of Guadalajara (UDG) and is currently Coordinator of Linking and Talent at the Cneter for Innovation in Smart Cities of the UDG. She is a member of the academic nucleus of the Doctorate in Information Technology, of which she was coordinator from 2013 to 2016, obtaining her accreditation in the National Quality Standard (PNPC) by the National Council of Science and Technology (CONACYT). Dra. Maciel has extensive experience in the field of virtual education through online platforms and has directed several research and postgraduate thesis, in addition to supporting projects in Information Technology. Additionally, it has scientific publications and she has participated in international conferences and panels.
